

WEB DESIGN - MATHS ALIVE

Community mailbox/pref's

TITLE: MAFE Community Mailbox / Preferences
CLIENT: Research Machines plc
PURPOSE: Design specification for the open access page of this whole class maths teaching product. These specifications were for development staff to work in regard to content styling and placement in the user environment. The image resources were supplied web ready in addition to these design guides.

The community mailbox was an open code system that needed to be redesigned from a visual standpoint so it conformed with the design of the rest of the service. Templates and interface elements were redesigned.
